

KATZ DISPLAY BOARD *glazed* *the eco solution*

Our two-side laminated display boards are the perfect print product for top-quality signage, tent cards and other POS display solutions. They offer an eco-friendly alternative to mineral oil-based POS materials such as foam boards and PVC signs due to it been dimensionally stable, so ideal for hanging.

KATZ DISPLAY BOARDS are typically laminated with glazed paper and are available in different sizes and thicknesses ranging from 1.18mm to 5.0mm.

Please contact us if you are interested in advanced lamination options.
